DETAILED ACTION

1. This Office Action is response to amendment filed on 08/12/2008. Claims 3, 6-7, 16-17, 20, 23-24 and 33-34 have been canceled. Claims 1-2, 4-5, 8-15, 18-19, 21-22 and 25-32 are currently pending.

Terminal Disclaimer

2. The terminal disclaimer filed on 08/12/2008 has been approved

Examiner amendment

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follow:

In The Claims:

21. (Currently amended) The method apparatus of claim 18, wherein, when the number of received responses does not exceed the threshold, the processor determines whether to establish a point-to-multipoint (PTM) communication or a point-to-point (PTP) communication based on the access probability factor.

Examiner Remark

4. Claim 21 has been amended.

Reasons for Allowance

5. This office action is response to amendment filed on 08/12/2008.
Claims 1-2, 4-5, 8-15, 18-19, 21-22 and 25-32 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowed:

The prior arts of record (Pub No.: 20070086441 and Pub. No.: 20040157640) fails to teach a method for controlling access to a Multimedia Broadcast Multicast Service (MBMS) service comprising:

determining a quantity of mobile stations (MSs) subscribed to the MBMS service and maintaining an active connection; determining an access probability factor; broadcasting a control message comprising the access probability factor; receiving, from each of one or more idle mode mobile stations, a response to the control message; comparing the number of received responses to a threshold to produce a comparison; and

determining whether to establish a point-to-multipoint communication or a point-to-point communication based on the comparison, wherein it is determined to establish a point-to-multipoint communication when the number of responses exceeds the threshold; and upon determining to establish a point-to-multipoint communication;

adjusting the access probability factor based on the number of responses from idle mode mobile stations and the threshold, and establishing a point-to-multipoint communication channel.

These limitations, in combination with the remaining limitations of claims 2, 4-5, 8-15, 18-19, 21-22 and 25-32 are not taught nor suggested by the prior art of record.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submission should be clearly labeled "Comments on Statement of Reasons for Allowance."
